

MSU Center for Orthopedic Research Seminar Series

Thursday, June 15, 2017 - 10:00 am - 11:00 am

McLaren Orthopedic Hospital, Conference Room 235

SI Joint Dysfunction as the Causal Element for a Variety of Musculoskeletal Low Back Pain Syndromes

Clarence (Nic) Nicodemus, DO. PhD

- Associate Professor
- Director of Clinical Research for the Department of Osteopathic Neuromusculoskeletal Medicine, MSU College of Osteopathic Medicine

Dr. Nicodemus earned his BS and MS in Mechanical Engineering and PhD in Biomedical Engineering with specialty in Orthopedic Biomechanics from UC Davis. He was employed as a Principle Scientist and Man Systems Department manager at NASA/Johnson Space Center in Houston for 6 years with the Lockheed Corporation helping to develop specifications for the construction of the International Space Station. In 1993, he was appointed as an Assistant Professor of Orthopedic Surgery and Director of Orthopedic Spine research at the University of Texas Medical Branch in Galveston for 7 years prior to his attending medical school.

Dr. Nicodemus graduated with his DO degree from Michigan State University College of Osteopathic Medicine in 2004 at 62 years of age. He did his residency at MSUCOM and is Board Certified in Osteopathic Neuromusculoskeletal Medicine. After nine years as a solo practitioner in Monterey, California he returned to MSUCOM last year.

He has published in peer-reviewed journals in both medicine and engineering and is a member of numerous medical and engineering societies and has contributed to several fundamental texts in Osteopathic Medicine.

MSU Center for Orthopedic Research

Located in the McLaren Orthopedic Hospital, 2727 S Pennsylvania Ave. Please use the Visitor Entrance - take the elevator to the 2nd floor, turn left off the elevator and follow the sign to the MSU Center for Orthopedic Research. Conference Rm 253 is the sixth door on the rightside.

Park in front of the Visitor Entrance, parking is free.
